Frontend Developer

Halyna Stepanenko

I specialize in creating user interfaces and the visual elements of websites with responsive design, and fun animations. Dedicated to continuous learning and improvement, I am committed to delivering excellence and contributing to a dynamic and innovative team. Developing and implementing high-quality code that is easy to maintain in a long run is a goal.

Experience

FRONTEND DEVELOPER | KEEP IN TECH

April 2023 - up to now | Ukraine | part-time | remote

- Developed solutions from scratch based on provided specifications;
- Conducted pre-release adjustments;
- Improved, bug-fixed interfaces;
- Developed new user-facing features using HTML, Tailwind, Alpine.js, and JavaScript;
- Participated in code reviews and offered constructive feedback to fellow developers.

JUNIOR FRONTEND DEVELOPER | PROMOTICH

October 2022 - March 2023 | Ukraine | freelance | remote

- Created user-friendly web interface using HTML, SCSS, JS, jQuery;
- Worked in collaboration with a designer to transform visual designs into practical and interactive features;
- Developed cross-browser responsive/adaptive markup for landing pages;
- Assisted in troubleshooting and resolving technical issues as they arose;
- Continuously learned frontend technologies.
